Bombardier Global 6000, SN9471

The Bombardier Global 6000 has one of the largest and widest cabins available in its class. Its range is inherent in its name - up to 6000nm (9,656km) - making it possible to fly up to 12 hours non-stop, such as the Mumbai - Milan route. This aircraft offers an improved cabin configuration and lighting, as well as avionics, which are of a new generation.

Price per week	On request
