ACH145

ACH145 is the result of constant reinvention. The desire to push for more. To go beyond the expected. This is your chance to experience the ultimate ride in a helicopter born to the role.

With over eight possible layouts, this is the industry's most flexible cabin and the most likely to offer an interior solution that meets your most exacting requirements. Designed with safety in mind, the latest Helionix flight deck features advanced, intuitive software, a synthetic vision system and a four-axis automatic pilot with complete envelope protection for ultimate precision and control.
